

ST IS OVER

THE BETTER IN THE
TION AT KAN-
TY, MO.

IS SUBSIDING

OF LIFE NOR
OF PROPERTY
ABLE.

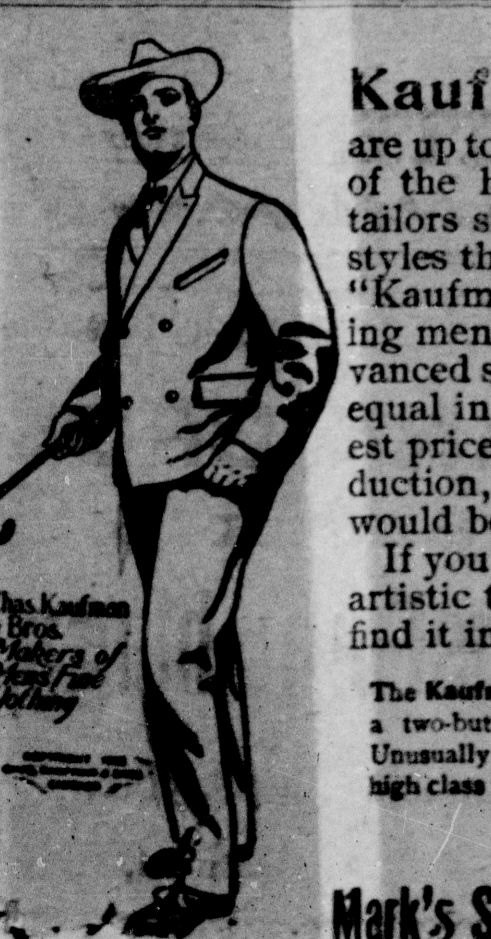

City, June 3.—Blue sky was
about Kansas City in the after-
noon at 4 o'clock. The rains have
ended and the sun was visible for the
first time in a week and a-fourth and
it is thought the greatest dangers of
the flood are past.

The waters of the Kaw river fell
eight inches during the day and at
night are steadily declining at the
rate of about one-half inch an hour.
In the Missouri the high stage of
thirty-five feet is still maintained, but
this is due to the flood which has
been coming down the Missouri proper
and has been able to offset the fall
in the Kaw. It is the waters of the
latter stream, however, that have
caused all the damage in this city
and in Kansas City, Kan., and with it
at a normal stage Kansas City will
shortly resume normal conditions.

The Dawn of Hope.
Kansas City has by a narrow mar-
gin escaped a serious shortage in
food, has been utterly helpless lately
to avoid its consequences; it has suf-
fered millions of dollars of damage
to property and sustained a loss in
life that in all probability never will
be accurately measured, and now it
is commencing to believe in the prom-
ise of better things.
At night, the situation shows im-
provement on almost every side; the
waters are falling, the water-works
will resume operations soon; the gas
has been turned into the mains once more
—and while there is no superabundance
of food, there is no immediate
danger of a serious shortage. The
city has cared for her own in royal
fashion and is abundantly able to do
so still, but there is

Not Sufficient Food on Hand
to permit the relief committees and
the municipal officers to feel easy over
the outlook. Provisions from outside
will be cordially welcomed. The
transportation facilities at the pres-
ent time are so limited that not much
freight can be brought in at a time,
and there is danger that the demand
may overrun the supply unless the
stock on hand is speedily replenished
from outside.
Two men lost their lives during the
day while endeavoring to save others.
Joseph L. Keenan was drowned
while endeavoring to rescue some peo-
ple from the Adams house in Union
avenue, across from the Union sta-
tion, and Edward Brooks lost his life
in Liberty street, where his skiff was
overturned by an eddy while he was
endeavoring to get another man out
of a building.

Several Floaters Seen.
A number of bodies were seen float-
ing down stream, but are believed to
be those of people drowned further up
the Kaw, probably at North Topeka.
Fully fifty people were brought to
the Twelfth street viaduct during the
day by boatmen. None of them had
been in great danger but had remained
in buildings until weary of the con-
finement and had then signalled for
assistance, which was given as rapidly
as possible. Many people are still in
the warehouses and office buildings
and will remain there until the flood
subsides. They are entirely safe and
fairly comfortable.
There is very little probability of
much more financial damage than has
already been done.
Night of Wretchedness.
The close of another day brought
a night of wretchedness to the thou-
sands of refugees at Kansas City,
Kan. Without water, save for urgent

THE
Kaufman Garments
are up to the minute in style, none
of the highest priced merchant
tailors show any more advanced
styles than can be found in the
"Kaufman Garments." Think-
ing men will readily note the ad-
vanced styles shown each season
equal in fit and finish to the high-
est priced merchant tailored pro-
duction, and to tell the difference
would be a difficult task.
If you want the highest class of
artistic tailoring you will surely
find it in a "Kaufman Garment."

needs, without beds, with the upper
part of the town unable to house in
any comfort the horde of refugees,
the night bids fair to be merely a
repetition of others since the on-
slaught of the flood.

The wretchedness, however, is more
mental than physical, although the
discomforts due to herding large
bodies of people in buildings not built
for the purpose, and trying to feed
an army without a commissary depart-
ment, are many. Leavenworth, to the
north, the only way by which the
suburb can be entered with stores, is
the spot to which all eyes turn con-
stantly in hope. Rations sufficient to
last several days, if carefully econo-
mized, were brought in during the
day, and additional bedding, clothing,
medicine and other supplies are ex-
pected within the next twenty-four
hours. Much mental discomfort ex-
ists because of the separation of mem-
bers of families who had

Barely Time to Escape
from the flood. Since Sunday, fathers,
mothers, wives, husbands, brothers
and sisters have visited every part
of town looking for other members of
their families. In their agitated
state of minds the worst has been
feared, but in the majority of cases
the ceaseless searching has resulted
in the reuniting of families.

Something like order was brought
out of chaos in the matter of distri-
buting such food as was at hand.
With the supply running short it be-
came apparent the distribution must
be systematic and a central bureau
for that purpose was opened and the
food was sent in the proper propor-
tions to the various schools, churches
and camps of refuge.

Temporary Hospital Established.
A temporary hospital with medical
attendants has been established.
Farmers sold garden truck in the
streets during the day and 900 slabs
of beef was received from Swift's
packinghouse. This is the total
amount of beef saved at that plant.
Merchants of Kansas City have bought
up large quantities of supplies which
will be shipped into the suburbs as
fast as possible.

People on buildings in Argentine
could be seen from Kansas City, Kan.,
and a number of rescues were effected.
Nothing came to light during the day
to base even an approximate number
of the victims of the flood. Bodies
were seen floating, but even this is
valueless, as they may have floated
down the Kaw from Topeka, and it is
not at all certain that observers have
not in some instances mistaken partly
submerged wreckage for bodies.

To Resume Normal Conditions.
There is a feeling among the lead-
ing business men that Kansas City
should show the country at large that
it is not disabled by the flood, but that
normal conditions will prevail as soon
as the flood recedes. The mayor of
Kansas City, Mo., said in the evening:
"Of course the personal suffering is
great and there will probably be
some individual failures, but the
great money loss falls upon associa-
tions that will not be crippled and
this loss will not be felt by the gen-
eral community. In thirty days it
will be hard to realize that there has
been such a flood."

Men Calling for Help.
A dispatch from Kansas City, Kan.,
says it is reported that the Missouri
Pacific bridge has gone down. A
great crash was heard in that direc-
tion and it looks as though one span
has fallen. The bells on the switch
engines standing on the bridge can be
heard ringing, and men are calling for
help. The report is verified by fire-
men at No. 4 station.

Eight persons are positively known
to have been drowned in the two Kan-
sas Cities since last Friday.
Dispatches from Kansas towns re-
port falling water, resumption of busi-
ness and a general scaling down of
estimates of loss of life and property.
In the excitement of the flood it was
difficult to be conservative.

SITUATION AT TOPEKA.

The Known Dead at That Place Num-
ber Forty-eight.

Topeka, Kan., June 3.—The flood
situation at Topeka can be briefly sum-
marized thus:
Known dead, 48.
River has fallen three feet and is
now receding at the rate of two inches
an hour.
Distress will be great among the
refugees.

Governor Bailey issued a proclama-
tion calling for aid for flood sufferers
of the state.

Fifty deputy sheriffs armed with
Winchesters go to North Topeka to
protect property with orders to shoot
looters whenever they are caught
stealing.

Governor Bailey's proclamation call-
ing for outside aid was decided upon
at a mass meeting in the afternoon.
The plan is to make Topeka head-
quarters and to distribute the aid from
here to the other parts of the state.

In addition to this general appeal,
an appeal to fraternal organizations
was made, and meetings in North To-
peka and the South Side were held to
arrange for the protection of property.
Immediately after the meetings a
large number of armed men left in
boats for the North Side, where they
will guard property, and their orders
are to shoot. The river is three feet
below high water mark. The Blue,
the Republican and the Solomon have
spent their force and the volume of
water spread over the Kaw bottom
will hunt its channel quickly.

The situation in the flood-stricken
districts is better than it has yet been
for the reason that fewer people are
marooned in trees and on islands.
Nobody is now clinging to trees.
Those clinging were either rescued or
have dropped into the river. Not to
exceed 300 people are now in North
Topeka.

There is no way of getting at the
amount of damage in Topeka and vic-
inity. It may reach \$2,000,000.

PASSENGER TRAIN LOST.

No Trace of It Can Be Found by the
Searchers.

Kansas City, Mo., June 3.—Chicago,
Burlington and Quincy passenger train
No. 3, from Chicago to Kansas City,
due here at 4 o'clock Sunday after-
noon, has been lost track of. It is not
deemed possible, nor the thought en-
tertained by the railroad officials, that
the train has run into the flood. Never-
theless, General Agent Harmon was
notified from the Chicago offices of
the extraordinary occurrence and Super-
intendent Mulhern was urged to ex-
ercise every possible effort to locate
the missing train and relieve its pas-
sengers at all cost and hazard.

The tug John Lentz was chartered
and a voyage made down the Missou-
ri river to Birmingham. Nothing was
to be seen of the train. Men have
been started on horseback to Liberty
with orders to keep as close as pos-
sible to the track and to carefully in-
vestigate what is known to be a great
washout two miles east of Birming-
ham.

RIVERS STEADILY RISING.

An Additional Area Now Inundated
Around Keokuk, Ia.

Keokuk, Ia., June 3.—Both the Mis-
sissippi and Des Moines rivers here
rose steadily during the day. The
former now stands at 18.2 feet, which
is three feet above the danger line.
The Des Moines river is higher than
ever known. An additional area is
now inundated, entailing the destruc-
tion of much valuable property.

Flood conditions confront all rail-
roads in the vicinity of Des Moines,
but the river was stationary there, two
feet below danger line.

SUSPECTED OF MURDER.

Wisconsin Man Arrested Charged With
Beating His Wife.

Sparta, Wis., June 3.—Samuel Mont-
gomery, residing near Warrens, this
county, was arrested here charged
with assault and battery and suspected
of causing the death of his wife.
Montgomery claims his wife was
killed during a runaway of a team
which he was driving on Saturday
last. The woman's neck was broken
and her head badly battered.

PROCEEDING RAPIDLY.

Postoffice Investigation Probably Will
End in August.

Washington, June 3.—The investiga-
tion of affairs at the postoffice depart-
ment is proceeding as rapidly as pos-
sible and the investigating officials
hope to close their inquiries by Aug.
1. Postmaster General Payne said
during the day that all the salient
points of the investigation probably
would be disposed of by the end of
this month, but that the rest of the
work might continue for a consider-
able time.

The only development announced
at the department during the day was
the promulgation of the letter of
Former First Assistant Postmaster
General Heath, who enters a denial
of the Tulloch charges.

The go-betweens who, it is alleged,
figured in transactions which led to
the arrest of Augustus W. Machen,
the former superintendent of the free
delivery system, are understood to be
members of a firm at Toledo, O., the
former home of Mr. Machen. Al-
though it has been asserted that there
are several parties whose arrest may
be ordered at any time, Postmaster
General Payne said that no arrests
are in contemplation.

Postmaster General Payne, soon
after the president's return to Wash-
ington, will report to him informally
in the work that has been done.

TO BREAK THE COMBINE.

Gigantic Movement Against Railroad
Rates on Flour.

Detroit, June 3.—A gigantic move-
ment against railroad rates for the
transportation of flour will be made
by the convention of the Millers' Fed-
eration of the United States, which
opens here today. It is expected to
break up the combine of the trans-
portation lines in which wheat is
given the preference over flour.

THREATEN TO STRIKE

MINERS' EXECUTIVE BOARDS EN-
DORSE SELECTION OF CON-
CILIATION BOARD.

THREE PRESIDENTS CHOSEN

REFUSAL OF OPERATORS TO REC-
OGNIZE THEM MAY RESULT IN
INDUSTRIAL WAR.

Wilkesbarre, Pa., June 3.—Another
dark strike cloud loomed up on the
horizon of the anthracite coal region
during the day. The executive boards
of the United Mine Workers in session
here endorsed the selection of their
three district presidents on the board
of conciliation authorized by the
strike commission, and if these mem-
bers are not recognized by the opera-
tors, the executive boards will con-
template calling a convention of mine
workers to declare a general suspen-
sion of work until their members are
given recognition.

The district presidents, as a result
of the meeting, issued the following
statement on the dispute:
"At a joint meeting of the executive
boards of the anthracite region here,
the members selected to represent the
mine workers of each district on the
conciliation board, reported that the
representatives of the operators re-
fused to recognize them or the mine
workers' credentials, or accept them as
members of the conciliation board.
They reported that the operators ob-
jected on the ground that the mine
workers' representatives were ap-
pointed by their organization as it ex-
ists in each district.

Discuss Strike Question.

"Two questions were under consid-
eration by the meeting. One is to
make application to the national pres-
ident of the mine workers to issue an
order for a general suspension of
work throughout the whole anthracite
region, to continue until the operators
agree to adjust existing grievances
and live up to the award of the an-
thracite coal strike commission, the
second is that a delegate convention
be called to consider the advisability
of taking the above action."

Another meeting will be held to de-
cide as to whether a suspension of
work shall be ordered.

District Presidents Nicholls and
Fahey intimated at night that the ex-
ecutive board of the mine workers will
stand by their decision and will in-
sist that their members on the con-
ciliation board be recognized.

National President Mitchell believes
that the miners' representatives on
the board are legally chosen and as
the district officers have just returned
from a conference with him at Buffa-
lo, they are evidently acting on his
advice. The indications are that if
no word from the operators is forth-
coming, the anthracite region will ex-
perience another struggle which will
attract the attention of the world. It
will be a bitter fight to the end. Some
of the members, however, feel that the
operators will recede and recognize
the credentials of the miners' presi-
dents.

TEXTILE STRIKE SPREADS.

Women and Children Join Shorter
Week Movement at Philadelphia.

Philadelphia, June 3.—The strike
of the textile workers of Philadelphia
for a fifty-five-hour week, has spread
to the hosiery mills, tying up the tex-
tile industry tighter than it has been
since the great suspension was in-
augurated. Fully 8,000 persons joined
the already large army of idle work-
ers. Most of these were women and
children employed in the hosiery
mills in the Kensington district. This
class of workers are unorganized, but
they decided to join the ranks of the
unionists in other branches of the tex-
tile trade, when they saw the mag-
nitude of the movement for a shorter
week.

It was given out by the unionists
that five additional firms had decided
to grant the shorter hours.

VIOLATED POSTAL LAWS.

Clerk at Kansas City Removed From
Office.

Washington, June 3.—Second As-
sistant Postmaster General Shallen-
berger has removed Svend Schibsky
of Kansas City, a railway postal clerk,
on the charge of violating the postal
laws. Schibsky is charged with lead-
ing a movement of railway postal
clerks to secure payment for travel-
ing expenses, a claim that never has
been recognized by the government
and which would involve payment of
about \$1,500,000 annually. Schibsky
stated that his arrangements were
made in good faith and that they were
not made until after he had notified
the chief clerk of his division of his
intention to resign from the service.

McCullum Dies at Los Angeles.

Los Angeles, Cal., June 3.—R. H.
McCullum of Duluth, Minn., a commu-
sioner to the Presbyterian assembly,
died at the California hospital at night.
Mr. McCullum was eighty-one years
old. He was taken ill enroute to Los
Angeles. Upon arrival here he was
taken to the hospital.

PRAISE FOR IOWANS.
President Roosevelt Lauds His Cab-
inet Officers.
Dubuque, Ia., June 3.—President
Roosevelt arrived here at 6 o'clock
last night. He spent the night here.
Today at 9 o'clock he left for the
East. When the president arrived
here he was greeted with the presi-
dential salute and cheers of 20,000
people as he stepped from the train.
The president addressed a crowd of
6,000 persons assembled in the city
park who sang "America" as the
party approached. The drive around
the city ended after a tour of the hills
overlooking the Mississippi river. At
the close of the address the president
was entertained by the Dubuque club.
An interesting incident attended
the presentation to the president by
the United Irish society of a souvenir

album containing pictures of Roose-
velt, Allison and Henderson. The
president, in thanking the delegates,
eulogized the people of Iowa. He ex-
pressed his well known ideas of good
citizenship and pleaded for a larger
navy.
President Roosevelt spoke in high
praise of Secretary Shaw and Secre-
tary Wilson at the club banquet.
The president made speeches at
Cedar Falls, Independence, Manches-
ter and Dubuque.

DECIDE ON PLANS FOR BIG CARNIVAL

Committee from the Elks Met with M. K. Swartz Last Night In Council Chambers

WILL COMBINE WITH LABOR DAY

And Make the County Fair, Labor Day and Carnival Biggest Event in Years.

Some time ago the matter of taking hold with the Crow Wing County Agricultural society and making the fair this year a success was brought up at a meeting at Brainerd Lodge, B. P. O. E. Favorable consideration was taken of the matter at the time and it was thought that it would be a good thing to make some special features of the fair this year in the evening if electric lights could be secured at Swartz' driving park. A committee was appointed to look into the feasibility of the matter and a meeting was held last night in council chambers.

M. K. Swartz, who owns Swartz' driving park and who is interested in the county fair, was at the meeting and the matter of a carnival to be given by the Elks in connection with the county fair was discussed at length.

It was also decided to interview the Trades and Labor assembly and ascertain in case the agricultural society would be willing to change the dates of the fair to the regular Labor day date and the following dates, if they would be willing to join forces with the Elks and the Agricultural society and make the three days hummers, the biggest that Brainerd has ever seen.

The plan as outlined by the committee would be as follows: On the first day there would be a grand Labor day celebration, with the usual sports, contests and parades. In the evening at Swartz' driving park there would be given a big show or minstrel performance by the Elks on a large platform erected for the purpose. The grounds would be thoroughly lighted and every convenience provided for. It is planned that the second day will be known as Crow Wing county day, and besides the exhibits etc., there would be a program of sports, finally winding up in the afternoon with the awarding of the prizes on stock, produce etc. The third day would be known as Brainerd day and the events would consist of sports of all kinds, a ball game in the afternoon and another large performance by the Elks in the evening. Interspersed with these events it is planned to have some outside attractions, such as acrobats, tumblers, dancers, etc. to keep the ball rolling all the time.

The committee will wait on the Trades and Labor Assembly and an effort will be made to make what will be known as the great County Fair and Fall Carnival a huge success.

SQUADRON TO VISIT KIEL.

Will Go to German Port for Regatta Week.

Washington, May 28.—The navy department announced in the afternoon that the European squadron would visit Kiel. The battleship Alabama will sail for the other side June 5 and join the European squadron, consisting of the Chicago, Machias and San Francisco, at Lisbon. Thence the squadron will proceed north to Kiel. The action was taken in accordance with telegraphic instructions received from Secretary Moody.

The American men of war will go to Kiel for regatta week by order of the president, as a special mark of friendship to the German emperor and in appreciation of the many courtesies he recently has shown the American people.

TO ELECT A PASTOR.

Meeting of the Council of Swedish Lutheran Church Called for this Purpose This Evening.

There will be a meeting tonight of the council of the Swedish Methodist church in this city at 8 o'clock.

The meeting is called for the purpose of electing a pastor for the church. The church has been without one since Rev. J. A. Johnson resigned some months ago. It is not unlikely that Rev. Mr. Bloom, now supplying here, will be elected tonight.

ABSOLUTE FAITH.

You Can Depend Upon the Word of this Brainerd Citizen.

She has had the experience. She has thoroughly tested the article. She found it as represented. She has absolute faith in its merits. Mrs. N. G. Blake, of West Brainerd, says: "I suffered a great deal from inflammation of the kidneys and I grew worse in place of better. My back in the region of the kidneys was sore, lame and it hurt me very much, an aching pain being ever present. The kidney secretions were dark in color and on standing deposited much sediment. When Doan's Kidney Pills were advertised I sent my son for a box. I was a little afraid I would not be able to use them for I cannot take some kinds of medicine. I found, however, that they were mild in their operation and did not produce any bad effects. Before taking them very long the kidney secretions became healthy in color, all deposits were removed, and the soreness and pain were replaced by a perfectly comfortable feeling."

SIXTEEN YEARS OF CATARRH.

Well Known Massachusetts Woman Cured by Hyomei.

How to cure catarrh has been a problem in medicine for many years that was not solved until the discovery of Hyomei. This remarkable treatment makes it possible for any one to breathe an air at home which is almost identical with that of the Adirondacks, the Carolinas or other health resorts where the air is impregnated with healing balsams from health giving trees and plants.

Simply place a little Hyomei in the inhaler which comes with every outfit, breathe it occasionally during the day and benefit will be seen after its use for only two or three times, while perseverance for a few days or weeks will effect a complete cure of even the worst case of catarrh.

Mrs. Elvira E. A. Gibson who holds a responsible position in the great dry goods store of Jordan, Marsh & Co., of Boston, wrote in April: "I had catarrh for twenty years, and the last ten years (all of which time has been passed in this great establishment) I suffered fearfully. One-half dozen handkerchiefs per day would be used. It extended to my throat; the base of my tongue was badly affected. I constantly kept in my mouth cardamon seeds or some such breath purifier. I could not sleep with my mouth closed. I began using Hyomei in December and in two weeks I was entirely—and now, after four months and no return of the disease, I can say, permanently—cured. The head of this firm, Mr. Jordan, endorses this statement."

H. P. Dunn & Co. have sold hundreds of Hyomei outfits, consisting of an inhaler, a medicine dropper and a bottle of Hyomei, and with every purchase have given their personal guarantee to refund the money if Hyomei did not cure. They will still sell the treatment on that plan and every catarrh sufferer ought to take advantage of their fair proposition. 11

Shrewsbury's Celebration.

The ancient English town of Shrewsbury will devote a week in July to a celebration of the five hundredth anniversary of its great battle, which occurred on July 21, 1403, says the New York Commercial Advertiser. The celebration will begin on Sunday, the 19th, with appropriate services in the old abbey church. The next few days there will be performances of "Richard II.," "Henry IV.," "Henry V.," and "The Merry Wives of Windsor" by Benson's Shakespearean company. The central figure of the whole celebration will be the fat knight who was never in Shrewsbury, if indeed he ever existed. Hotspur, the two Henrys and Douglas will take second place to the immortal Falstaff.

The Brainerd opera house was packed to overflowing last night, the relatives of those who were graduated from the high school of this city, their friends and people generally, interested in the best educational interests of the city and the development of the young idea, turned out in large numbers.

It was an auspicious occasion and there was evidence of improvement on every hand, the facts of the steady growth of the school in the past five years being well set forth in the address made by Supt. Hartley during the evening.

The opera house with its great throng of happy faces presented a delightful appearance. The stage was most artistically arranged. The members of the graduating class sat in a semi-circle about the stage and large palm trees were artistically arranged behind them, rendering a most restful background to the pretty scene. To the right of the stage they had a small wagon trimmed with the colors of the class, cardinal and olive, from which was extended a rope of ribbon which was tied at the other end to a star illuminated by varied colored incandescent lights. This representation exemplified the class motto, "Hitch Your Wagon to a Star."

The class had no orations or essays this year, a program of music and song and an address or two by prominent speakers, being thought more appropriate.

The class, composed as it was of children of the very best families in the city, was an honor to the city and to the Brainerd public schools. Supt. T. B. Hartley in his address paid the members of the class a high compliment, stating that they had been handed over to him by the teachers as being worthy to graduate, and he believed that every member was entitled to this distinction as he had watched to some extent their work.

The program opened with an overture by Graham's orchestra, and it really seemed good to hear this organization play again.

Miss Jennie Mysen played Grieg's "On the Mountains" and was given a round of applause.

The High School chorus, under the direction of Miss Grace E. Barker, gave two songs and showed excellent training. The selections were Wiegand's "Cradle Song" and "Football Day," a vocal march.

REV. H. G. LEONARD'S ADDRESS.

The address of the evening was given by the Rev. H. G. Leonard, of Fargo, on "Our National Heritage and our Opportunity." The address was a scholarly effort and the large audience was delighted. In substance Rev. Mr. Leonard said: "One of the first things I wish to say, and it is the most appropriate thing, is to congratulate the members of this large class on their graduating, and also to congratulate Brainerd on the evidence that is given of the high achievements made in the educational line."

"It is good to take our bearings and discover where we are, and whither we are drifting. It is good to tell over to ourselves some of the deeds of our fathers, remembering their achievements. It is not only pious but patriotic to remember the good providence of God that has so abundantly enriched our lives and so graciously opened before us a large door of opportunity. It will humble us to remember that it is not our arm, or wit or strength that has gotten us this rich heritage. Countless generations have made possible this fair outlook that greets us in this morning of the twentieth century. Let us name some of the rich things that are yours. Our great land, it is worth loving, appreciating and praising. It is fair, rich, varied; large, beautiful and kindly, a land to prize and love. We should be a people of large patriotism and

and large love matching the extent of our glorious country. Think of the love men had for Greece, for Switzerland and for Scotland. Can we greatly love our great land as they loved the mountains and valleys of their little lands. Surely God hath set us in a large place.

"In American history there is a chance for patriotism and poetry and high imagination. Remember the story of our growth from the days of the Revolution down to this day of expansion. Take down the map and see how naturally, inevitably, logically and providentially the stars and stripes have moved westward and southward and on to the great northwest and over the western seas. Surely it should be a great hearted people that dwell in such a land. And all this has been done for you. You are to enter in and possess this land and rejoice in it. Here you are to build an empire resplendent in great cities and teeming with fruitful fields, a rich motherland capable of nourishing a mighty population.

"Not only is the extent of the country great but it has a history. You are heirs to a great history and a splendid history. Think of days of the discovery and the colonization, of the stout hearted heroes who ventured hither centuries ago.

"Think of the men of revolutionary days and of the battles they fought for freedom. Not only freedom for America but freedom for the world; fought for the idea and principle of democracy that has passed in glorious vision before the oppressed of half the world. Their victory not for themselves alone but for men the world over. Washington, Adams, Otis and Jefferson will become household names to the uttermost corners of the world to inspire and cheer patriots in far distant lands. But these men and the men of Valley Forge and Tarrytown belong especially to you.

"After the Revolution and the Declaration of Independence, and the constitution you may see the quiet, persistent march of men across the Alleghany mountains streaming down the Ohio, treading the forests of Kentucky, filing into the broad prairies of Illinois or into Iowa. That great stream of heroic pioneers moving westward and claiming this heritage in the name of their children and children's children.

"Do we fully appreciate the privations, hardships and sorrows of these fathers and mothers who carried out these states and opened up this wilderness?"

"Then that other great page in our history. The dark and fearful page of the Civil war. You will never know, you can never know the bitterness, heartache, sorrow, cost and sacrifices of that war.

"But if bravery, courage, principle and patriotism could ever make a great war glorious, surely it was the civil war. This too is a part of your heritage. You have a land undivided, a people free and united, a common flag and a common destiny. Pray that sectional strife may never again embitter our hearts. But this is not all. You have a wide heritage in Anglo Saxon and Anglo Celtic literature, and thanks to books, schools and magazines you have the opportunity to enjoy this heritage in ways unequalled in all our history. Sometimes we think we are poor. But when we say that we forget our friends and the stores of wealth they bring within the easy reach of us all. How books and libraries have multiplied in recent years, and thanks to the schools how wide has been your introduction.

SUPT. T. B. HARTLEY'S ADDRESS.

The following were the remarks made by Supt. Hartley in part:

"To present the class of 1903 is a pleasure. In their behalf it may be said that their work is well done and that the parental wisdom displayed in sending these young men and women through the high school is commendable. Five years ago there was only one graduate, now there are sixteen. Five years ago the principal of the high school could report to the state only 68 students, now he can report 158, or two and one-half times as many. Then the junior class had four members, now it has over twenty. Five years ago it was the exception rather than the rule for eighth grade students to pass the state examinations, but this year a trifle more than 93 per cent. of the grade papers can be forwarded to the University. Then we received 39 passes, this year we expect 275. Then the high school received 83 passes, this year we expect over 300. These figures are given to encourage a more regular attendance, better laid plans for study, and to show patrons that they may feel a degree of pride in the high school.

"There is another feature of our schools that needs encouragement, and that is enlarging our representation to the state university. There is an average each year of one college graduate for ten thousand people in the United States. From all that I can learn, Brainerd, a city of ten thousand people, does not have an average of one university graduate annually, and is therefore below the average. The only reason for this is that the Brainerd schools have kept little association with the university, and the result is only one of habit.

Let us all hope and endeavor to better that association. Twenty years from now when these young men and women are in their prime, they will have to compete with the younger university graduates, and when that time comes their gratitude for this magnificent start in the world will doubly compensate their parents. Time is at hand when people who expect to hold responsible positions must have a record of continuous employment from childhood up. The age in which people may waste one or two years after graduation has passed, and the problem immediately before this class is to become more educated or more useful. From my acquaintance and from the recommendations of their teachers, I believe they have the training, the energy, and the ability to do both. It is often said that worth receives its reward and in that belief I present each of this class with a testimonial which it is forever their privilege and their duty to cherish and to honor."

After this address the diplomas were presented to the members of the class and during a selection rendered by Graham's orchestra the friends pressed forward to congratulate the young people.

A HOME WEDDING.

Marriage of Mr. Alfred G. Schnell to Miss

Blanche Whitney is Solemnized

Last Night.

There was a very pretty home wedding last night at the residence of Mr. and Mrs. A. G. Whitney in East Brainerd, when their daughter, Miss Florence B., was married to Mr. Alfred G. Schnell. The ceremony took place at 8 o'clock, after which a sumptuous wedding supper was served.

Mr. and Mrs. Schnell left on the midnight train for St. Paul where they will visit for a time. Among the out of town guests at the wedding were Mr. and Mrs. H. Schnell, father and mother of the groom. Mr. and Mrs. Schnell have the best wishes of a large number of friends in this city.

BASE BALL NUBS

There will be a good game of ball at the Brainerd Athletic park on Sunday afternoon when the Elks team will play with the high school team. The latter team is said to have strengthened up for the occasion and it will be a warm number all around. It is expected that Krelwitz, of Aitkin, will pitch this game for the Elks and Tasche will probably be in the box for the high school team. The game will be called at 3:30 o'clock.

Bemis, who pitched for Brainerd last year, is a topnotcher in the Northern league, his batting average as a pitcher being way up and his work in the box being of the gilt edge style. There are a whole lot of fans in this city who will be glad to hear that Bemis is doing well.

TOURNAMENT NOTES.

The State Firemen's Association and Tournament will be held in Brainerd June 9, 10 and 11.

Work was commenced this morning on the erection of the arches and platform for the streets for the State Firemen's association tournament. A large platform and arch is being erected on the corner of Sixth and Front streets.

The committee in charge of the tournament has made arrangements with the L. Crossman five tent show for the three days of the tournament in this city. His tents include the Georgia minstrels, vaudeville, moving pictures, Basco the snake charmer and the Cuban dancing girls. The department will receive 15 per cent of the proceeds from these attractions and those who patronize them will be helping the department.

There will be a big balloon ascension at the ball park on the afternoon of the last day.

Most every fireman in the city, and there are many of them, have new suits for the fire tournament.

"Caprice" will be put on again on the evening of June 11, and all the firemen will be present.

Something like \$150 was cleared on the performance of "Caprice" at the Brainerd opera house on Saturday evening, which helps swell the tournament fund.

KNIGHTS PYTHIAS CONVENTION TODAY

Staples, Little Falls, Wadena and Royalton Have Representatives Here

WORK AND BANQUET TONIGHT

Will be Work in Rank of Knight and it Will be Exemplified With Great Pomp.

The district convention of the Knights of Pythias is being held in this city today. This district is composed of the lodges of Staples, Aitkin, Little Falls, Wadena and Royalton. There are about thirty-five delegates present.

At 6 o'clock and from that time to 7:30 a banquet will be served in the hall in the Columbian block. Immediately after the banquet the work in the third rank will be exemplified and it is expected that it will be given with great pomp.

The banquet will be followed by a musical and literary entertainment. W. I. Nolan, the entertainer of Minneapolis, is in the city and will be present tonight and Grand Chancellor James Robertson is also here and will deliver an address.

MUSIC AND DRAMA.

"OLE OLSON."

A popular actor in a popular play will form a strong attraction at the Brainerd theatre Thursday evening when Mr. Ben Hendricks, far and away the best of Swedish dialect actors, will present the well known and well liked comedy drama "Ole Olson" and will be aided by an excellent company which includes an especially attractive feature in the Swedish Ladies' Quartette. As "Ole Olson" was the first in the series of Swedish plays in this country, so it has retained its popularity and prestige, and with the frequent introduction of new material and the occasional brightening influence lent by the injection of new ideas, it has maintained its vogue. No claim is made that it attains the high mark in literary excellence, or that it thrills by the epigrammatic discussion of any problem of doubtful morals. On the other hand, it presents a simple, homely story of every day life, in which comedy and pathos are naturally blended and are offered in stage pictures that charm by their naturalness. The development of "Ole Olson" from an awkward, unsophisticated immigrant lad into a bright quick witted and up-to-date Swedish-American is the keynote of the story. Seats will go on sale tomorrow at Dunn's.

FESTIVAL PROGRAM.

The festival program by music pupils of St. Benedict Sisters, will be presented Friday evening June 5th at the opera house instead of June 4th as formerly announced. The exercises will commence at 8:15 sharp. Adults tickets 50 cents and children's tickets 25 cents to all parts of the house. Seats may be reserved at Dunn's drug store on Thursday and Friday, the first time that tickets can be reserved being Thursday morning at 10 o'clock.

ANTLERS TO BE PROPERLY SET

On a Few Benighted Fawns from Walker Way on Thursday Evening by Local Lodge of Elks.

There is a big time in sight for Thursday night and there will be something out of the ordinary doing in view of the fact that a bunch of timid fawns—nice velvety ones—will be down from Walker. This merry bevy has been used to the Indian sun dance, the grand old pow wow of the pale face boys on the reservation with all its seeming inauspicious and petulant phantasms, they have even been almost within reach of some of the phizzes of these mad Redmen in the war dance, but when Brainerd's impresario, A. L. Mattes, brings them out in this new role which they are about to assume, they will wish they were back on the reservation sure.

They will be led to the trough to drink of the milk, and they will be astonished at its "sweetness" and "purity." A warm time is looked for on this night and there will be a feed after the event. Every "Hello Bill" in Brainerd should be out for this to be a decidedly Walker night.

DEAD AT GAINESVILLE.

Victims of the Tornado Will Number
About a Hundred.

Gainesville, Ga., June 3.—The six
thousand inhabitants of this city have
just begun to realize the extent of
the appalling disaster of Monday. It
now seems certain that the death list
will not be much short of 100; per-
haps somewhat over that figure, con-
sidering the number of dangerously
wounded whose chance for recovery
cannot now be foretold.

The story of the work of destruction
has already been told. All that
remains is an accurate list of the dead.
Figuring from all available sources
and giving credence to those reports
which are believed to be trustworthy,
this is a summary of the tornado in
Gainesville and its environs:

One hundred killed; 150 injured, of
whom 20 probably will die; 800 home-
less, their residences having been
wiped out of existence; property loss
of about \$500,000, none of which was
covered by storm insurance.

A concise and accurate statement
of the casualties cannot be rendered
for several days, but the physicians in
attendance believe it will not go very
far above 100, although fifteen or
twenty are desperately injured and
may die within the next two or three
days.

The death list so far compiled in-
cludes thirty-two at the Pacolet cotton
mills at New Holland, all of whom
were killed in the demolition of the
company's cottages; and thirty-six at
the Gainesville cotton mill, near the
Southern railway station, where the
tornado first struck.

IDENTIFIED AS BOOTH.

Lincoln's Assassin Suicided at Enid,
Okla., Jan. 14 Last.

St. Louis, June 3.—A special to the
Globe-Democrat from Enid, Okla.,
says:

Julius Brutus Booth, the actor and
nephew of John Wilkes Booth, the as-
sassin of President Lincoln, has fully
identified the remains of the man
known as David E. George as his un-
cle, George, or Booth, committed sui-
cide here Jan. 14 last and in his ef-
fects was found a letter directed to
K. L. Bates of Memphis, Tenn. Mr.
Bates came here at once and fully
identified the body as John Wilkes
Booth. He then went East and has
obtained positive identification of the
remains from the dead man's nephew
and from Joseph Jefferson, Miss Clara
Morris and a score of others who
knew him in his early days.

According to Mr. Bates' story he had
acted as Booth's confidential agent
and attorney for nearly forty years.
After Lincoln was shot the assassin
escaped to the Garrett plantation in
Virginia. According to Mr. Bates the
man who was killed was named Rudy.
Being warned Booth left Garrett's
and was taken care of by friends in
Central Kentucky. He later settled at
Glenrose Mills, Tex., where he con-
ducted a store for several years as
John St. Helen.

Collector Seizes Whiskey.
Louisville, Ky., June 3.—A deputy

valued at \$500,000. The company is
charged with equalizing by replacing
the old whiskey with spirits.

SECURITIES DECLINE

A. E. AMES & CO., ONE OF CANA-
DA'S LEADING FIRMS, SUS-
PENDS PAYMENT.

AMOUNT TO TEN MILLIONS

LIABILITIES OF THE COMPANY
ARE BELIEVED TO BE ABOUT
THAT LARGE.

Toronto, Ont., June 3.—A. E. Ames
& Co., one of the leading firms of
bankers and brokers in Canada, closed
their doors during the day. Their
failure was due to heavy declines in
Canadian securities. It is stated that
when market conditions have become
settled and the securities held by the
company and their customers reach
figures approximating something like
their actual value, the assets of the
company will fully offset their li-
abilities.

The securities the company and
their clients have been largely inter-
ested in are Dominion Steel common
purchased around \$70, and which are
now selling around \$15; Sloss securi-
ties, which were purchased at much
higher than their present value. Twin
City, which has declined from 128 to
102, is also heavily held. The follow-
ing notice was posted by the firm:

"Owing to the continued severe de-
cline in the securities market we have
found it

Necessary to Suspend Payment
and would ask the indulgence of our
friends for a few days until we can
prepare a statement of our affairs and
decide what is best to be done."

On this announcement a panic en-
sued on the Stock Exchange. Hun-
dreds of persons surrounded offices of
the company seeking for informa-
tion as to the extent of the firm's li-
abilities. The last statement of the
savings bank department showed
\$200,000 on deposit. It is impossible
to figure the firm's total liability at
the present time owing to the exten-
sive fluctuation in the price of securi-
ties in which the company and cus-
tomers are heavily interested.

The statement is made on good au-
thority that Mr. Ames has put \$1,000-
000 into the business and the other
members of the firm, A. M. Pope, E.
M. Frazer, and W. D. Walcott, sums
aggregating nearly the same amount.
It is known that one of the Toronto
banks recently advanced \$200,000 to
Ames & Co. in the hope that that
amount would be sufficient to tide
over the affairs of the firm.

Liabilities of Ten Millions.

Ten million dollars is the amount of
the firm's liabilities as generally
agreed upon by bankers and brokers.
Against this amount the company
holds securities which in any half
normal condition of the market would
be ample.

R. E. Walker, general manager of
the Canadian Bank of Commerce, said
that although Mr. Ames kept his cash
account at that bank their relations
had not been at all close for many
months past. Mr. Ames' indebtedness
to the bank was secured by stocks
which are not affected by the suspen-
sion. Nor would Ames & Co.'s sus-
pension, Mr. Walker said, affect any
other financial institution in the city
so far as he knew. The board of the
Bank of Commerce had not approved
of some of Mr. Ames' ventures, and
their relations, therefore, had been far
from intimate. The suspension of
Ames & Co. will have no effect on any
of the many institutions of which Mr.
Ames is interested except, perhaps,
his withdrawal from the presidency of
the Metropolitan bank.

PASSES THE DANGER POINT.

River Rising at St. Louis and the
Worst Yet to Come.

St. Louis, June 3.—Thirty foot—the
danger point—was reached and passed
during the day by the flood that is
coming down the Mississippi river.
The river continues to rise rapidly
and a point considerably higher than
thirty-four feet, which Weather Fore-
caster Grodie had predicted would be
reached by Thursday or Friday, will
be an accomplished fact. The crest
of the flood from the Missouri river
is yet to come and when it shall reach
and find augmentation in the high
water of the Mississippi river, some
loss of life is feared and destruction
of property must ensue.

The first loss of life attending the
present flood in this vicinity was
reached in the drowning of Mrs. Wil-
liam Schmidt and her two children in
an attempt to escape in a small boat
from Catfish island in the Missouri,
seven miles southeast of St. Charles.
Great damage in this section is
feared during the coming rise. While
working to save the Granite City le-
vees, which were threatened by flood,
Mayor John Edwards of that town
was probably fatally injured by an
explosion at the city pumping station.
Flood conditions are reported from
Hannibal, Carrollton, Waverly, Mar-
shall and Booneville, Mo.

The situation at Jefferson City is
somewhat alarming just at present
from the continued rise in the river,
which has rendered many homeless.

CHILDREN BURN TO DEATH.

Three of Them Perish in a Fire That
Destroys Their Home.

Clinton, Ind., June 3.—Three chil-
dren of Benjamin Van Houtin were
burned to death eight miles south-
west of here. The father was at
work on his farm when the house
caught fire from a defective stove. A
son thirteen years of age was at work
in a field near the house when he saw
the fire and went to the rescue of his
little brother and sister. He broke in
the door but was unable to reach the
children, who soon burned to death.
The rescuer died of his burns.

Edward VII. Speech Writer.

An amusing aftermath of King Ed-
ward's Parisian visit comes in the form
of the following story, says Harper's
Weekly: The king, whom limitless
practice in the long years of his re-
publican life made an expert in speech-
making, invariably composes his ora-
tions on the spot and delivers them off-
hand. But mere reporters are not ad-
mitted to state banquets such as that
given at the Elysee in Paris to the king
by the president of the French repub-
lic. It followed that when the king
was asked for the text of his speech
for subsequent publication no text was
forthcoming. His majesty had finally
to follow the course of lesser mortals
and write out his speech himself. And
exactly the same thing occurred at the
Hotel de Ville. In this case the de-
layed telegram begging for the speech
only reached his majesty at Ports-
mouth, and he had there and then to
set to and write it. One wonders what
became of those two pieces of copy and
whether they will appear in the ar-
chives of the future.
